

WORKFLOW
FOR EVERYONE
EVERYWHERE

NINTEX[®] Sessions

SharePoint Conference
Booth #1614

March 3-6, 2014
Las Vegas, Nevada

WORKFLOW FOR EVERYONE EVERYWHERE

INTO THE CLOUD

FROM YOUR DESKTOP

AT YOUR FINGERTIPS

What are the Nintex Sessions?

The Nintex sessions are a series of long (MVP Presentations) and short (5-Minute Sprints) educational seminars that provide you with information on how to get the most out of your SharePoint investment, how to solve typical SharePoint challenges, and how to create streamlined workflows quickly and easily.

You can stop by the Nintex booth (#1614) anytime to be a part of the sessions. Use this booklet as a guide for times, session descriptions and names of our MVPs.

MVP Presentations

We've got a great line-up of SharePoint MVPs who will show innovative approaches on how you can get the most out of SharePoint and Office 365.

Come see presentations on workflow requirements gathering, forms strategies in light of the InfoPath announcement, and how to facilitate power-user built forms and workflows.

5-Minute Sprints

A lot can happen in five minutes. So we've developed theater sessions that address all of your top of mind workflow, forms, and SharePoint challenges.

Come see our on-premises and cloud-ready solutions that are easy to deploy and deliver rapid results. Topics range from crowdsourcing feedback with Nintex and Yammer to connecting workflows to the cloud in one click.

Best of all, they're five minutes long and won't conflict with the main conference breakout sessions.

WORKFLOW
FOR EVERYONE
EVERYWHERE

Main SharePoint Conference Sessions

Mike Fitzmaurice

VP of Product Technology, Nintex

Nintex's very own Mike Fitzmaurice will be presenting as part of the SharePoint conferences main sessions. Make sure to catch his lively and educational presentations.

Monday, March 3rd

3:45-5:00pm	Palazzo Ballroom O, P	Using Nintex to Automate and Integrate SharePoint and a Whole Lot More	
Mike Fitzmaurice	mikefitz@nintex.com	Track: Developer	Technical Level: 200

SharePoint may be the center of the universe, but it's a big universe. Workflows often need to integrate processes that span data and applications across the data center and throughout the cloud. This demo-intensive session will show just how easy it is to use Nintex to automate and integrate on-premise and online content repositories, line of business apps, databases, custom code, and other resources – we'll even build a solution before your eyes. More than a thousand customers use Nintex with and/or in the cloud, and this session will illustrate why Nintex's motto is "workflow for everyone — everywhere."

Tuesday, March 4th

12:15-12:30pm	Main Exhibit Hall: Partner Demo Theater	Nintex Workflow Solutions: Be Where Your Users Are	
Mike Fitzmaurice	mikefitz@nintex.com	Track: Developer	Technical Level: 100

Solution success is in the hands of your users, and a great way to ensure success is to let them participate in processes the way they want, in the places they want, in the format they want. You'll see a demonstration of a process that lets any user — including you — respond to assigned tasks via web browsers, mobile devices, the public Internet, instant messaging, email and even social media.

Nintex Booth Sessions Schedule

(Booth #1614)

Sunday, March 2nd

6:30-6:35pm

5 Minute Sprint

Crowdsourcing Feedback and Decision-making with Nintex and Yammer

Social media channels are one more place where work can be distributed and work can be discovered. We'll show you how easy it is to ask a community of stakeholders to weigh in on a decision you've got to make. In five minutes we'll show you how to monitor and respond to activity in Yammer Feeds, push notifications to Yammer networks, and manage Yammer users, groups, and profiles.

7:00-7:30pm

MVP Session

Using Workflows to Build Servers

Speaker: Tood Klindt

We all know Nintex workflows are cool and can do amazing things. But did you know they could actually build servers? In this quick talk we'll cover how pairing Nintex with Rackspace Cloud Servers makes the impossible possible.

8:00-8:05pm

5 Minute Sprint

Reusing Best Practices

Make your organization smarter and quickly automate more everyday processes by relying on solutions to problems that were already solved. Nintex Workflow ships with more than a dozen pre-built templates that you can get started with. Additionally, you can modify existing templates, build your own template from scratch, and save it for reuse in the future.

In five minutes we'll show you how:

- User Defined Actions (UDAs) allow you to create your own workflow actions based on a combination of other workflow actions
- UDAs can be used to share functionality across an entire Site Collection in as many workflows as you want

Monday, March 3rd

10:40-10:45am

5 Minute Sprint

Getting Your Docs in a Row: Reviews that can span SharePoint, Box, Google, OneDrive, and DropBox

You love and use SharePoint, but, occasionally, you have to work with people that don't. We'll show you how to build processes that coordinate content in other places with processes that live in SharePoint. We'll pull information in, route it around for review and approval, and then put it back to where people can continue to work on it. In five minutes we'll show you how to automate document review using multiple external content stores.

12:40-1:10pm

MVP Session

#ShiftHappens: How to Inspire, Thrive, and Drive Purposeful Collaboration

Speaker: Dux Raymond Sy

A revolution is brewing in the enterprise today. Business velocity, BYOD, collaborative engagement, advanced analytics, and unified communications are converging to deliver the promise of enterprise collaboration success. How can you ensure that your organization can embrace, thrive and sustain this major shift? Join industry thought leader **Dux Raymond Sy**, as he shares techniques on how to maximize your SharePoint investment and achieve organizational buy-in to drive purposeful collaboration.

1:15-1:45pm

MVP Session

Requirements Gathering Tips for Automating Business Processes

Speaker: Laura Rogers

It helps to know the right questions to ask when you're presented with a form or Visio diagram for a new process. In this session, Laura Rogers will discuss several important tips to remember when beginning the requirements gathering for new workflows.

3:25-3:30pm

5 Minute Sprint

A Form in Four Clicks

We'll build useable, flexible business forms in a matter of seconds, directly from SharePoint, and all within your browser.

In five minutes we'll show you how to:

- Design visually appealing forms with sophisticated business logic
- Customize predefined layouts for any device, form factor or screen size
- Extend your forms and processes to users outside the firewall

WORKFLOW FOR EVERYONE EVERYWHERE

Tuesday, March 4th

12:30-1:00pm

MVP Session

The SharePoint Survival Guide Top 10

Speaker: Eric Shupps

Saddle up with “The SharePoint Cowboy” for a blazing ride through ten of his most important survival lessons for SharePoint Administrators.

1:00-1:05pm

5 Minute Sprint

Distributed Processes: Online and On Premises

As much as we love the cloud, we don't expect everyone to fully commit. If you have some work happening in the cloud and some work happening on-premise, it's possible to create processes that do the right work in the right place at the right time.

In five minutes we'll show you how to:

- Build hybrid and distributed deployments by connecting workflows between distributed SharePoint deployments, including Office 365

3:05-3:10pm

5 Minute Sprint

**Nintex and Lync:
Real-Time and Presence Integration**

Workflows built with Nintex can reach far beyond SharePoint. See quickly built, easily run examples of presence based routing, task notification, and data collection, using real time communication. In five minutes we'll show you how to build presence-based approval and Lync integrated workflows.

4:40-4:45pm

5 Minute Sprint

**Quick and Easy:
A Real Workflow in Five Minutes or Less**

No cooking show tricks here. We'll build an approval workflow and run it in front of your very eyes. In five minutes we'll show you just how easy it is for anyone to build a business process, quickly and easily.

Wednesday, March 5th

1:00-1:30pm

MVP Session

Empowering End Users Creating Workflows and Forms

Speaker: Andrew Connell

Times of late have shown dramatic changes in the SharePoint landscape in the areas of workflow and forms; we have a whole new workflow engine powered by Workflow Manager and recently Microsoft announced that we will see no future version of InfoPath? So what options are available to power users who don't want to call developers to solve their issues? Come listen to Andrew Connell offer his thoughts and answer your questions on these two topics!

3:05-3:10pm

5 Minute Sprint

Your Work in Your Pocket

Nintex Mobile apps for Windows, Windows Phone, iPhone and iPad provide a rich process participation experience for data collection, approvals, task completion and a whole lot more.

In five minutes we'll show you how to:

- Get work flowing to and from your mobile device
- Capture data, interact with business systems and processes, and kick-off, track and delegate tasks directly from your mobile device

4:40-4:45pm

5 Minute Sprint

Connecting Workflows to the Cloud in One Click

We've put over 100 workflow actions in the cloud that are ready to help you automate everyday business processes, quickly and easily-without a single line of code.

In five minutes we'll show you:

- How Nintex Store is a one stop shop for all your workflow action needs.
- How to seamlessly connect Nintex Workflow to external systems such as Microsoft Dynamics CRM, web services, and other applications including Twitter, Facebook, Box, and Dropbox

WORKFLOW FOR EVERYONE EVERYWHERE

Thursday, March 6th

10:20-10:25am

5 Minute Sprint

Integrate Your Workflows with Exchange Calendars, Task Lists, and Inboxes

There's more to workflow email integration than sending task notifications. Nintex Workflow can collect input from email, schedule tasks, check calendars, and make appointments.

In five minutes we'll show you examples of using Nintex with Exchange to schedule tasks, check calendars, and make appointments.

1:00pm

Prize Drawing

NINTEX[®] Raffle

Win a pair of Bose Quiet Comfort Bluetooth headphones or a \$2,000 Visa Gift Card!

Collect 500 points to enter to win the Bose Quiet Comfort Bluetooth Headphones.

You need 1,000 points to win the \$2,000 Gift Card
