Uninstalling Nintex Live Framework

The following are the steps to be taken for completely uninstalling Nintex Live Framework:

Removing the Nintex Live Framework Solution

1. Disable the Nintex Live Forms site collection feature on all site collections.
2. Login to the server that is running the Central Administration service as a SharePoint administrator.
3. Go to **SharePoint Central Administration**.
4. In the Quick Launch menu, click Nintex Forms Management. In the Nintex Forms Management section, click the **Live Forms settings** link.
5. In the **Enable Nintex Live Forms** section, click on **Disable**.
6. Click the Start menu and navigate to **All Programs** > **Microsoft SharePoint 2010 Products** > **SharePoint 2010 Management Shell**.
7. In the SharePoint Powershell Command Prompt, type:

   Disable-SPFeature -Identity NintexLiveAdminLinks -url [Replace with Central Administration Web Application]

   e.g. Disable-SPFeature -Identity NintexLiveAdminLinks -url http://mysharepoint:12345

   Uninstall-LiveService

   Uninstall-SPSolution -Identity NintexLiveCore.wsp

   Remove-SPSolution -Identity NintexLiveCore.wsp

   Note: For all the Confirm prompts. Select 'Y'.
