Integration. Provisioning. Information.
What can you **do** with Enterprise Edition?
Demo: Real-World Calculations in Real-World Processes

Featuring Excel Services
Demo: Data driven processes
Featuring BDC/BCS
Important Tips

• Build SharePoint objects and then your Workflows

• Save Time
  • Publish without Validation
  • Open to view previous versions of a Workflow

• Debug
  • Run Now “Execute”
  • Enter specific values to test

• Actions
  • Know your workflow actions!
  • Reuse workflows and their components
